

Fall Seminar

RAMKOTA HOTEL - BISMARCK
SEPT. 25-26 2021

Join us for Fall Seminar

10 CEs on Saturday, Sept. 25 and Sunday, Sept. 26, 2021

Speakers: Dr. Evan Gwilliam, Kristi Hudson and Dr. Chris Anderson

Topics:

Creating Rock Solid Records – Dr. Evan Gwilliam

In this riveting presentation, Dr. Evan Gwilliam, certified coder and auditor, and Clinical Director for PayDC EHR software, will show you how to give payers, state boards, attorneys, and anyone else who wants to know exactly what they need. Finally feel like you know how to create records and provide care that won't be denied or refuted. By the end you will be able to select the right diagnosis and procedure codes and create near-perfect SOAP notes.

- Master ICD-10 rules that can make your records better and learn the secrets of documenting and coding for the top diagnoses used by chiropractors
- Learn the ways of Evaluation and Management CPT coding and documentation, with changes for 2021
- Become an expert with the requirements for the other top CPT codes used by chiropractors
- Discover how to create effective and compliant SOAP notes

Managing Risk: Protect Your Team and Patients With An Effective Defense – Dr. Chris Anderson

Whether you are a recent graduate or a long-time practitioner, understanding risk management is an important aspect of everyday practice. Every day in our practice across the country we aim for high-quality patient care, and place practice risk management at the forefront to maintain ethically and legally sound operations. Putting appropriate policies and procedures into place will help prevent you, your staff, and patients from becoming involved in legal matters. This session will review real risk management case studies discussing the situation, the case, the outcome and what we can learn. Topics that will be addressed: Fraud, waste and abuse, Vertebral artery dissection, altering patient records, compliance, and plenty more. This class will also review HIPAA and discuss common HIPAA scenarios and educate you on what to do in those situations.

Let's get down to Business – Dr. Chris Anderson

The Us Department Of Health And Human Services (HSS), Office Of The Inspector General (OIG), As Confirmed That Poor Documentation, and lack of policy and procedures by Doctors Of Chiropractic Is The Leading Cause For Increased Audits. Learn about the ins and outs of Medicare, Informed consent, HIPAA, The proper use of Medicare ABN (Advanced Beneficiary Notification), record keeping and documentation. Dr. Chris Anderson is a practicing chiropractor in Wisconsin, Certified Medical Compliance Specialist, Certified Insurance consultant, Certified Chiropractic Sports Physician, author, and national speaker. Dr Chris Serves as a consultant for the Wisconsin Chiropractic Association. He will bring his high energy expertise to every aspect of the chiropractic office and get your ready to implement this process the next day. This class is perfect for the entire team, doctors, team members and billers.

Learning Objectives:

- Attendees will review Medicare LCD, and documentation requirements.
- Attendees will review informed consent, including the 4 components; decision capacity, documentation of consent, disclosure, and competency
- Overall Review of HIPAA including Security, Privacy and Transaction rules and how to handle them.
- Attendees will review how to document medical necessity, and necessary requirements that are required in documentation.

Business Ethics: Chiropractic Issues & Case Studies – Kristi Hudson

This presentation deals with business ethics as it directly relates to the chiropractic office. Small business owners are increasingly being held responsible and accountable for their ethical behavior. Practices have learned that the costs of unethical actions can be high, both legally, and from the perspective of the image and reputation of our profession.
